3. CJCC Workgroup Spotlight: Backlog of Cases-Erica Rice
 - DJS will have a staff member join backlog of cases workgroup-Ariel will follow up
4. Public Accountability Dashboard Review – Joseph Muhlhausen
 - City Council names need to be updated
 - It was suggested that names should be removed and only the district numbers should stay (note: some community members only know their district by council member and not by number)
 - State legislative numbers should be added
 - Some districts overlap can cause confusion
 - GIS is working to fix a connectivity issue between district and address info
 - Street robbery should be a separate category
 - Add case number so you can search even if you're not involved in the case and don't have the cc number
 - Tied to incident not the charge from the SAO

- If a case had multiple charges: Ex. Conviction tied to the carjacking; acquitted on one charge convicted on another would be helpful to see the full details on the next iteration
 - None of the data on the dashboard includes juveniles
 - MONSE communications team should work with principal agency communications to make sure the information is properly “footnoted” before dashboard is public. This is to avoid any issues with complaints about data accuracy
 - CJIS codes should be added for next iteration
 - Sex Offender info= registered or not registered should be added
5. Open Forum: Updates from Principal Members
- DSPCS-DPP Dashboard is now online
6. Closing Remarks & Adjournment – Mayor Scott
